

contract mining

Working together to achieve better outcomes for your clients and sustained profitability.

Scope Systems' specialised contract mining solution is suitable for mining contractors who wish to better manage their operations. With a unique, industry-focused suite of functionality, each solution helps you to better serve your clients, more efficiently manage your administrative tasks, optimise future commitments and purchases as well as increase staff and asset utilisation.

The contract mining solution offers managers a range of integrated, yet modular, functionality to support their business process management activities including:

- Financial management, including payroll
- Project (job) costing
- Asset maintenance
- Customer Relationship Management (CRM)
- Inventory planning and optimisation
- Warehouse management
- Hire Purchase (HP) Lease Management
- Business Intelligence reporting
- Budgeting and forecasting
- Offered via Software as a Service (SaaS) or Standalone
