

drilling

Providing you with a foundation to drill deeper for profits.

Scope Systems' business process management solution for drilling companies has been tailored to meet the unique needs of drilling clients, both in and out of the boardroom. Each solution has been specifically designed to provide you with the necessary foundation to achieve greater asset utilisation, improve field data collection, solidify customer relationships and improve financial and administrative task efficiencies.

Tailored to ensure your unique business processes are reflected, Scope Systems Enterprise Resource Planning and Reporting (ERP) has been proven to help with the following:

- Financial management, including payroll
- Project (job) costing
- Asset maintenance
- Customer Relationship Management (CRM)
- Record and manage PLODs data
- Inventory planning and optimisation
- Warehouse management
- Business Intelligence reporting
- Budgeting and forecasting
- Offered via Software as a Service (SaaS) or Standalone
