

scope systems Xplor

Providing you with foundation tools to grow your exploration company into a profitable producer.

Scope Systems Xplor solution has been specifically designed with small exploration companies in mind. It offers small companies a quick and efficient way to establish robust, standardised business processes and set your company up for success from day 1.

With industry-specific functionality that caters for end-to-end optimisation of your most important business processes, the Scope Systems Xplor solution offers functionality across the following areas:

- Financial management
- Standardised Chart of Accounts suitable for your exploration company, and catering for your continued expansion
- Project (job) costing
- Tenement management
- Standardised purchasing and approval processes
- Numerous standard reports available
- Capture, track and monitor non-financial data across a range of metrics
- Cost-effective Software as a Service (SaaS) deployment model
- Grow with this software into a producing mining company
